Learning Style: On Demand

Provider: Microsoft

Difficulty: Intermediate

Course Duration: 3 Hours

## Access 2016 Intermediate - Part 1

## About this course:

Businesses students and professionals who wish to enroll in a comprehensive training course shall look no further. This course will set your foundation for the creation and management of the database, and will also teach a student features beyond basic databases such as complex queries, data tables, and formula implementation.

Microsoft Access is software that enables you to create, design, and manage a database from scratch to help your enterprise operations.

## Course Objectives:

With this course, candidates will be able to use Microsoft Access proficiently:

- You will learn how to navigate within the Microsoft Access interface, and create, manage, and customize a database and its configuration
- Organize, manage, and edit data stored in Access tables using queries such as join, sort, and filter
- And use forms for better access to data
- Create custom reports

## Audience:

This course targets individual who is seeking to form a strong foundation with Microsoft Office Access 2016 with all the essential skills including database and data table creation, designing of reports and forms, and writing queries.

## Prerequisites:
