Course Duration: 16 Hours

Azure Security and Compliance

About this course:

While utilizing cloud services, the major concern that arises is always regarding the best practices that should be followed to guarantee the security of your crucial software and applications.

Microsoft Azure offers all that you need to trust on by providing a powerful infrastructure that is reliable and meets the international standards of security. It offers various tools and resources that are integrated to fulfill all your compliance and security needs. Use Microsoft Azure's platform without any worries to build and deploy your software and applications on the cloud.

You will get to know about Azure's tools such as Azure Security Center, Azure Vault Key, and Microsoft Trust Center. With the help of these tools you will be able to grip skills and knowledge of the features concerning compliance and security in the cloud.

An average salary of a cloud administrator can be of \$79,357 per year.
