Learning Style: Virtual Classroom

Provider:

Difficulty: Intermediate

Course Duration: 5 Days

## eMASS Version 5.5: Direct User Training (EM55-R10)

## About this Course:

This intermediate-level training program is specifically designed to help professionals understand the core concepts and functionalities of eMASS. Candidates will also learn to identify the role of eMASS in the Risk Management Framework of the Department of Defense Information System. This course also covers the fundamentals of eMASS Authorization Process Implementation and helps the candidate understand the basics of developing, evaluating, and authorizing RMF Assessment & Accreditation Packages.

Students with eMASS User Access can gain maximum benefit from the teachings of this course and can perform additional practical exercises and activities. The goal is to help professionals learn the art of supporting Risk Management Framework Assessment & Accreditation. However, candidates with no classroom access can also enroll in this course and access the discussions, lectures, and other assessments.

The full-access course is 5 days long encompassing multiple hands-on activities and the normal course is 3 days long with only theoretical knowledge and assessments.

## Course Objective:

The core objective of this course is to help professionals gain a better knowledge and understanding of the following key concepts:

- eMASS Core Concepts and Fundamentals
- Building Familiarity with New System Registration
- Packages & Templates Importation and Migration
- eMASS System Management Essentials
- Authorization Package Management
