Learning Style: Virtual Classroom

Provider: VMware

Difficulty: Beginner

Course Duration: 4 Days

VMware AirWatch: Bootcamp (VMAWBC)

About this course:

This four-day boot camp is a combination of the VMware AirWatch: Configure and Manage and the VMware AirWatch: Configure and Deploy Integrated Solutions courses. These courses take you from learning the foundational skills needed to configure and manage your VMware AirWatch® environment to advanced operations on the VMware AirWatch platform. You will learn how to enable containerized applications, deploy and manage corporate email, and integrate VMware AirWatch with your enterprise resources.

The average salary for Vmware Administrator is **$79,168** per year.

Course Objective:

By the end of the course, you should be able to meet the following objectives:

- Enroll devices in your enterprise environment, configure and update device settings over the air, and secure a diverse fleet of mobile devices
- Select the email deployment strategy that best fits your business and security requirements
- Manage internal, public, and purchased applications across managed devices
- Enable secure mobile access to content anytime, anywhere, while protecting sensitive content
- Gain insight into major platforms, including iOS, Android, and Windows 10 devices
- Configure and provision cloud deployments
- Learn VMware AirWatch best practices for mobile deployments
- Understand how to deploy and manage VMware AirWatch applications from the console
- Integrate with enterprise resources by installing VMware Enterprise Systems Connector™
- Enable containerized applications to securely connect with back-end resources through use of VMware Unified Access Gateway™
- Deploy and manage corporate email through the use of VMware AirWatch® Secure Email Gateway™

Audience:

VMware AirWatch administrators, IT staff, sales engineers, consultants, support and help desk personnel, solutions architects, solutions engineers, and VMware AirWatch installers and implementation specialists

Prerequisite:

- There are no prerequisites required for this course

Course Outline:

Module 1 Basic VMware AirWatch Architecture
Module 2 Introduction to VMware AirWatch
Module 3 Mobile Device Management Fundamentals
Module 4 Mobile Email Management Fundamentals
Module 5 Mobile Application Management Fundamentals
Module 6 Mobile Content Management Fundamentals
Module 7 Next Steps
Module 8 Enterprise Systems Connector
Module 9 Integrate and Configure with Directory Services
Module 10 Secure Mobile Devices with Certificates
Module 11 Unified Access Gateway
Module 12 AirWatch Secure Email Gateway
Module 13 Windows PowerShell Configuration
Module 14 Integrating with Android Enterprise
Module 15 Enrollment Options for MDM
Module 16 Create Web, Application, and Device Kiosks
Module 17 Reports, Analytics, and Telecom Management
Module 18 VMware Identity Manager
Module 19 AppConfig Community
Module 20 AirWatch Content Locker Advanced
Module 21 Next Steps

Credly Badge:

Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your Linkedin profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific skills you developed.

Badges are issued by QuickStart and verified through Credly.
