**Difficulty: Beginner**

**Course Duration: 2 Days**

## Migrating to AWS

### About this Course:

Migrating to AWS focuses on planning and migrating existing workloads to the AWS Cloud. The course covers various cloud migration strategies with a detailed discussion on each phase of the migration process, including portfolio discovery, application migration planning and design, migration execution, and post-migration

validation and application optimization. The first part of the course provides students with an overview of migration planning principles and best practices, and the second half of the class focuses on migration design and implementation with hands-on labs to reinforce concepts.

## **Course Objectives:**

- Explain the various cloud migration strategies.
- Assess cloud migration readiness.
- Discover your portfolio and plan for migration.
- Plan and design your application migration strategy.
- Perform and validate application migration to the cloud.
- Optimize your applications and operations after migrating to the cloud.

## **Audience:**

- Solutions Architects and engineers who perform cloud migrations and have completed AWS Technical Essentials or Architecting on AWS
- IT Project Managers who are involved in projects related to migrating existing workloads to the AWS Cloud and have completed AWS Technical Essentials or Architecting on AWS
- Individuals who are part of an organization's cloud Center of Excellence (CoE)

## **Prerequisites:**

Familiarity with enterprise IT infrastructure (hardware and software)

- AWS Technical Essentials
- Architecting on AWS

## **Course Outline:**

This course will be delivered through a mix of:

- Instructor-led Training (ILT)
- Hands-on Labs

This course covers the following concepts:

## Day 1

- Migrating to AWS - An Overview
- Discovery, Analysis, and Planning
- Migration Planning and Design

## Day 2

- Migration, Integration, and Validation
- Optimizing Applications and Operating in the AWS Cloud

?

## Credly Badge:

### Display your Completion Badge And Get The Recognition You Deserve.

Add a completion and readiness badge to your LinkedIn profile, Facebook page, or Twitter account to validate your professional and technical expertise. With badges issued and validated by Credly, you can:

- Let anyone verify your completion and achievement by clicking on the badge
- Display your hard work and validate your expertise
- Display each badge's details about specific skills you developed.

Badges are issued by QuickStart and verified through Credly.
